# Oxford German Dictionary

## Synopsis

The Oxford German Dictionary provides authoritative coverage of German and English with over 320,000 words and phrases, and 520,000 translations. Essential grammatical information and language usage notes are provided for both languages. This edition of the Oxford German Dictionary includes cultural notes, providing interesting and helpful information on life in the German- and English-speaking world. In addition, there are boxed notes offering help with language usage and construction, and a centre section covering essential correspondence with sample letters, emails, CVs and rÃfÃ©sumÃfÃ©s, and sections on using the telephone and writing text messages. The colour design and ultra-clear layout make it even easier to find the translation you are looking for. It is an essential reference tool for all serious students of German. Discover more on [oxforddictionaries.com](http://oxforddictionaries.com), Oxford's hub for dictionaries and language reference.

## Customer Reviews

This Tome of a book is exactly what I needed to learn german. Though its size necessitates one needing to lay it on a surface, its thin pages and letter markers make sorting through it a breeze. The cover appears to be fairly durable which can be said of my mini version as well, but like the mini version, there seems to be some gluing problems in the binding process that causes it to appear on the top or bottom ridges of pages. The tome looks fairly decent and rather classic looking without the dustcover which is good because although the dust cover is very decorative and modern looking, it crumples fairly easily. However, if you are like me, the constant use of the dictionary will protect it from dust enough. Where this book excels is in its ability, through examples, to give one the

proper word it use in various different contexts instead of a literal english-german translation of words. One could also learn through these examples a little in the way of grammer and idioms. The culture section was rather disappointing compared to the mini-version, however, their choice to focus more on business and personal letter or email structure is fairly important and suitable for a book that one would use as a reference book as one could not only find the right words to use in certain situations when sitting down to write a more thoughtful letter, but also see how to make one properlyOverall this book earns a 5/5 in my book.

I purchased this dictionary based on the information provided at the website, namely that it is a 3rd edition, published in Sept. 2008. As such, this meant to me that the dictionary already includes the new German language rules that was set by the 2006 committee on new German spelling rules, known as "Neue deutsche Rechtschreibung, Stand 1.8.2006

This dictionary is wonderful, but the reason I ordered it was because it was supposed to come with a CD-ROM. That's what the description said. Sorry. False Advertising. No CD-ROM. I bought an Oxford Spanish Dictionary with a CD-ROM ten years ago and I'm still using the CD-ROM. Who's to blame here? Oxford? ? Whatever the case, I got scammed because I already have good hard copy German dictionaries that are relatively up-to date. I just wanted the CD-ROM because it allows you work so much quickly.

Awesome! Received everything as advertised! I love it and I don't speak any German (yet), but, this dictionary is very clear and easy to navigate! Thank you!!

This is an excellent, larger-sized German Dictionary, I have the smaller version, as well. This has many, many word definitions and a very helpful selection of various German grammar rules, especially useful for written German. This does have the "new" spellings and many "new" words. I recommend this as a good, standard reference Dictionary to keep at home. If you wish to have a good Dictionary to carry around with you, try the smaller version of the Oxford German Dictionary. There are fewer words, but more than enough for what you might need in a classroom situation. The large dictionary might be a bit intense for beginners, but sooner or later, every German student will wish to own this. Recommended.

I was skeptical about this purchase in advance because one reviewer had stated that the "cd-rom

was not shipped . . ." I then checked the ISBN in a worldwide database called WorldCAT, and found that an optical disc SHOULD come with this edition. Alas, a nice book arrived, but there was no optical disc, and hence it would not provide me with a good German-English English-German dictionary to bring along on a two month visit to Europe, mainly Germany. I love Oxford University Press publications, but this edition of this work seems to either have a flaw in description, or has got a collection of incomplete books. I promptly returned it, and am still looking for what I wanted in the first place. A real quality printed work to add to my library, and a computer version to install on my laptop. Still looking.

thorough and decent size print is a real plus

This is a no brainer! Excellent resource if you have to use a hardcopy dictionary, Duden's is probably the best.
