Voyager (Starz Tie-in Edition): A Novel (Outlander)

Synopsis

NOW THE STARZ ORIGINAL SERIES *OUTLANDER* In this rich, vibrant tale, Diana Gabaldon continues the story of Claire Randall and Jamie Fraser that began with the now-classic novel *Outlander* and continued in *Dragonfly in Amber*. Sweeping us from the battlefields of eighteenth-century Scotland to the exotic West Indies, Diana Gabaldon weaves magic once again in an exhilarating and utterly unforgettable novel. *VOYAGER* Their passionate encounter happened long ago by whatever measurement Claire Randall took. Two decades before, she had traveled back in time and into the arms of a gallant eighteenth-century Scot named Jamie Fraser. Then she returned to her own century to bear his child, believing him dead in the tragic battle of Culloden. Yet his memory has never lessened its hold on her . . . and her body still cries out for him in her dreams. Then Claire discovers that Jamie survived. Torn between returning to him and staying with their daughter in her own era, Claire must choose her destiny. And as time and space come full circle, she must find the courage to face the passion and the pain awaiting her . . . the deadly intrigues raging in a divided Scotland . . . and the daring voyage into the dark unknown that can reunite—or forever doom—her timeless love. Praise for *Voyager*

“*Voyager* is, frankly, an amazing read. An unusual mix of romance, suspense and history. . . . If you can put this huge tome down before dawn, you’re made of sterner stuff than I am.” *Arizona Tribune*

“Rousing . . . audacious . . . exciting . . . Gabaldon masterfully weaves . . . flashbacks . . . crossing time periods with abandon but never losing track of the story.” *Locus*

“Unconventional . . . memorable storytelling.” *The Seattle Times*

Customer Reviews

This triumphant conclusion to Gabaldon's time-travel trilogy was a PW bestseller. Copyright 1994 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

Time traveler Claire Randall first encountered Jamie Fraser, the fiery 18th-century Scottish clansman, in *Outlander* (Delacorte, 1991). The lovers continued their relationship in the best-selling *Dragonfly in Amber* (Delacorte, 1992). Now, in *Voyager*, Claire decides to return to the 18th century to reunite with her beloved. First printing: 60,000 copies. Copyright 1994 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

Sweet christ. I cursed more in this book than I have in any of the others, but this is also my favorite of the series so far. I don't know why I get so angry with the characters when I KNOW that I'm just going to let them crawl back into my heart and do it all over again. I mean for f@#k's sake. JAMIE. Remember in the last book when I was so pissed at Claire I couldn't see straight? Oh. Well, now it's Jamie's turn. Until approximately 27% into this book I was really angry. AND THEN. The perfect scene happened. And it was like the rain fell lightly overnight, cooling the heat that was smothering me and I could finally breathe again. I spontaneously orgasmed. My heart burst from my chest. And all was right with the world. We know from the blurb that Claire goes back in time to find Jamie now that she knows he's alive but twenty years have passed. TWENTY YEARS. Anything could have happened in those twenty years, and gahhhh, so much does. Can Claire accept the Jamie that he is now as opposed to the one that she remembers so long ago? It's clear from the immediate reunion that they both burn for each other. The hot kisses and the firm grip of their love is undeniable to anyone who sees them. But as the truth unravels as the secrets Jamie keeps start to spill out can Claire forgive him? CAN I FORGIVE HIM? There is a ton of angst, kidnapping, arson, prison, murder, glorious sex, shipwrecks, and even the return of a character that I never thought I'd see again. At one point I skipped through my kitchen and squealed while my husband gave me side eye and shook his head. At another point I had silent tears streaming down my face as a piece of my heart broke off. This series is exceptional. Yes, it's effing

long. Yes, Diana knows it. She actually makes fun of herself a little bit about the length of her books in this one and I found that refreshing. In all reality, this book is like 4 in one.

There's a lot packed into these pages that will keep you up at night and have you thinking about it during the day. I dreamed about this book, twining it into my sleep as well as my days. This book, like the others, is written extremely well. The attention to detail is outstanding and Diana knows just how far she can push you before you need a reprieve, and then she reels you back in with Jamie & Claire. Always Jamie & Claire. The secrets are forgivable, the passion is real, and the journey is unforgettable. 5 Stars! On to Drums Of Autumn!

My friend is obsessed with everything Outlander! She kept trying to get me to start the series, but I really didn't want to get involved in something that would take so long to get through. I finally, somewhat hesitatingly, began the first book. Maybe I was just too skeptical, but the back story unfolded too slowly for me, and I really wasn't hooked for quite some time. But, since my friend, and many other friends of hers, are completely crazy about it, I stuck with it. I wouldn't say I'm over-the-top obsessed like many others, but I am committed now, and determined to get to the end of the story! The story line is fabulous, weaving fantasy, relationships, and several love stories in with breathtakingly beautiful geography and realistic history, including wars, peace, and the hardships of a life in Scotland, before the luxuries we enjoy today. I, personally, could do without the explicit details of the many sexual adventures, interspersed evenly throughout the entire series, and this is the only reason for not giving the book series 5 stars. When I see that she is building to a sexual encounter, I just fast forward a minute at a time, until I get past it. I just don't enjoy reading about who touched what and what was experienced as a result (it's really a little pornographic at times). Sometimes the intimacy isn't really so intimate, and is occasionally overly aggressive. The relationship of the two main characters is fascinating enough to keep me buying the next kindle book, and always including the audio option for an additional \$3.99! However, I have to use headphones when listening around others, because you never know what is going to fly out of her mouth!

I loved this portion of the series! Claire risking all for the love of her life. Jamie Fraser loving only Claire even when he thought he would never see her again. I was delightfully pleased with this book. I was afraid to read it because I thought it was going to be heart wrenching, but it was a deep soul moving story line that has so many twists and turns that it's hard to put down! Jamie lives an action packed life and always seems to come out on top I don't think he will ever confirm to the law

because his mind is always looking for the just thing to do. I love how Jamie is willing to die to protect those that he loves and respects. If you read this you won't be disappointed great story now on to the next in the series!

I got hooked on the Highlander T.V. series, and then decided to start reading the books to fill in the missing pieces. get a better picture Thoughtful continuation of the saga, 1st two seasons of the T.V. series, and development of the adventures of the Highlander characters. However, my only criticism is Ms. Gabaldon gets a little too verbose in describing some situations/scenes. I just skip over some of her descriptions to get back to the meat at hand. I do love this whole Highlander saga. I find it very intriguing. The only reason I rated the book the way I did is that when Ms. Gabaldon get to prolific with words in her description of situations/scenes, the book slows down - there's a fine line as to when enough is enough.

This is the third Outlander book I've read and it is the best one so far. I've been reading each book then watching the story unfold on the tv series by the same name. This book has it all-- romance, mystery, occult, pirates, and more. I wasn't even aware that I was coming to the end of the book until I turned the page and there before you go popped up. I recommend this book for fans of the series.

The continuation of Jamie and Claire's story. This is one of those that if you loved the first 2 books like me you have to read on. Exiting, adventurous but sad and heartbreaking at times. I loved every moment.
