Whether you're a practicing balneologist (one who seeks the healing properties of natural hot springs) or just an occasional dipper, this book steers you toward the natural baths from Surprise Valley in Northern California to the Mexico/California border. By the looks of the overview map, there may be more hot springs than casinos in Nevada, with warm waters to suit both your style and desire for adventure. Steamboat Hot Springs, 11 miles south of Reno, provides visiting gamblers with a resort-style respite, in contrast to the primitive Gold Strike Hot Spring, found in a narrow valley near the Colorado River. This spring requires a 4-mile round-trip hike and some boulder scrambling "with substantial drop-offs

There is nothing quite like a relaxing soak in naturally heated mineral water to ease muscle tension and soothe aches and pains. This guide leads soakers to 83 easily-reached natural hot springs.

My daughter-in law loved it.

great!

excellent response time.

Great book with pictures, great description and driving directions and in great condition. Can't wait to go and visit these places.

This book will take you to the well known and well hidden hot waters in Cali. I have hit several, but have yet to venture to Nevada.

Matt. C. Bischoff has clearly and concisely listed all the great hidden and publicly known hot springs in Nevada and California. It's a great regional hotsprings guide.

Used the book, but the hot springs were just too far away. Everything in California is far away. You have to have a lot of time to find these places. The book is good and the only one that really shows you where these hot springs are.

Awesome book. Very good shape, good price And I didn't have to leave home! Quick shipping too. Thanx, Gene
