Customer Reviews

Still the best for giving u detailed information on the sites u visit. Very detailed. My only complaint is their lodging recommendations, which I don't think are very good. And u will probably want another guidebook to supplement the Michelin, which by the way will stay up-to-date for years.

Great overall guidebook. We are more interested in the sights and history, altho it still gives some lodging/restaurant suggestions. We chose this because we can get those types of suggestions online, and the we can carry the book with us throughout our trip for ideas, even when we are not near wifi...

As always, not exciting but a solid guide. Very helpful with just the right amount of details to help us walk through the lovely towns of Sicily. Also enjoyed the historic background which provided excellent context for what we were seeing.;

Useful pocketbook guide to take on my trip to Sicily. Huge amount of information packed into a handy size paperback. Clear maps, great photos.

Great resource for traveling. Especially like how it highlights things to see between cities and day trips. Was a must have for our 2-week trip around Sicily.

Excellent, comprehensive guide as are all Michelin travel books.

Michelin always does a good job. Will know more when I get to Sicily as to how good the book is.

A must for traveling and driving in Europe
