Within Reach: My Everest Story

Synopsis

In May 1996 the media scrambled to document the gripping story of sixteen-year-old Mark Pfetzer's expedition to Mount Everest. Not only was he the youngest climber ever to attempt the summit, he also witnessed the tragedy documented in Jon Krakauer's *Into Thin Air*, in which eight climbers perished in a sudden storm. *Within Reach* is Mark's extraordinary account of this experience and of his triumphs over several other challenging peaks. At once triumphant and tragic, this story will be an inspiration to climbers, athletes, and armchair enthusiasts alike. --This text refers to the Paperback edition.

Customer Reviews

This is a terrific book for teens, young adults, and, yes, adults about a Rhode Island teenager, Mark Pfetzer, who makes his dreams come true. The book is written as if it were a personal journal, and in it Mark takes the reader on a journey into his young life. He shares with the reader how his interest in climbing developed, as well as his early climbing experiences. Mark, mature in many ways beyond his years, is not your typical teenager. Clean cut, intelligent, fit, and not given to peer pressure, he is a bit of a loner with a dash of entrepreneurial flair. As his climbing experience increases, so does his desire for snow capped peaks. This desire motivates him to get sponsors for his world wide travels that take him to the vast mountainous regions around the globe. Mind you, he begins his world wide travels, unaccompanied by his parents, at the ripe old age of thirteen. While one may question the wisdom of letting someone so young travel around the world to do high altitude climbing, it does not diminish the pleasure one derives from reading about a young person who derives such joy from his travels and climbing. While at times Mark seems a little full of himself,

one must remember that, notwithstanding his achievements, he is still a teenager, and, like most teenagers, he has his moments. Still, his chronicle makes for a very interesting read. His endeavors on high altitude peaks, including Everest, are noteworthy, notwithstanding that he climbed with guided expeditions. While towards the end of his journal he may appear to be suffering from trophy mountain madness, it does not diminish the palpable love of climbing that permeates the pages of the book. Mark is, without a doubt, a son of which any parent would be proud. I am sure that he will continue to live his life to the fullest. I look forward to reading about any future adventures that he may commit to paper. Dream on, Mark, and may all your dreams come true.
