Great book ...I wish he wrote a work book to go with it

This book added nothing new to my knowledge of NLP. A majority of the book was spent stating and re-stating why it was controversial and the topic itself was barely covered. It was badly written and full of grammatical and typographical errors.

Enjoyed every page and started using the simple NLP tips right away. My life and confidence level is changed immediately. A must read!

The cover is a gimmick to get people to buy what is otherwise a VERY informative book on the practical uses of NLP

Nothing new in this book. A lot of time spend around the topic without delving enough into specifics.

Interesting

Fairly good book.

It is OK .... Pretty much common sense stuff anyone who reads it already knows and doesn't realize it
