Provence: Style Of Living

Synopsis

Proud villas, farms surrounded by cultivated land, simple stone buildings in the middle of vineyards, and fields of lavender: that's Provence, and these homes, photographed by Maisons CÃfÂ'te Sud magazine, showcase the region's beauty and style. On display are brick tiles that stay cool in the summer, big clay pots displayed on either side of a door, mosaic stone paving, sunny kitchens full of yellow and green earthenware, comfortable bedrooms with cotton furnishings, wrought-iron banisters, gates, and window grills, and courtyards bathed in dappled light. It all adds up to a combination of heritage and stylishness unlike any other.

Customer Reviews

Another good book on the style of design in the south of France. The book covers exteriors as well as interiors of homes and all of the elements that make up that design. Books like this one that show homes that are designed in the actual style of the region are extremely useful to anyone who wishes to style their home in this manner.

All this book has are pictures from a magazine. Those pictures are of very fancy and high priced homes that are not relevant to ordinary homes and people. I was very disappointed. Don't buy this book if you are looking for tips on how to create the look in your home.

This book is full of wonderful pictures and ideas. Probably, most of it is sourced from the french lifestyle magazine. Sometimes these sort of books don't live up to expectations. This one hits the

mark.

The book gives many ideas to update my garden and patio area. Makes you want to buy an airline ticket and go there.

I had been buying the magazine Cote De Sud off and on for some time when I came across this book on . I still get the magazine but I refer to the book many times during the year. I have enjoyed this book very much. Of all my French Decor books It is probably my favorite. Color is intense and photos are large and well defined. Good read and good design ideas.

This book describes typical Provencal style elements and shows stunning photo examples. If you are a Cote Sud magazine reader you can be assured of the same high quality images and graphic design. However, here you will find the helpful instruction you are seeking if you are building or decorating in the French Style. I have many style books and this remains my favorite!

GoooooD

A delightful book for my library shelves.
