Tears Of The Moon: Irish Jewels Trilogy, Book 2

Synopsis

A talented songwriter, Shawn Gallagher spends his days lost in reverie and wonder, oblivious to the wiles of women and the ways of the world. He claims that he's content with his life, but his music tells a different story— a cone of loneliness and desperate longing— No one understands why Shawn doesn't put his musical gift to profitable use— at least of all Brenna O'Toole, a fiercely independent tomboy who has been secretly in love with him for years. But it is only when Shawn gives in to the mysteries of magic that he gets the chance to fulfill his destiny as a man and a musician— as the song in his head keeps time with the beating of a woman's heart. --This text refers to the Paperback edition.

Customer Reviews

I love all of Nora Roberts' books written with some magical or supernatural elements of which this book has both. Add to that the setting in Ireland and I am completely in love. What I did not expect was how much humor is also in this romance. There were many times that I laughed right out loud disturbing my husband's football watching in the process. I was disappointed when the story ended as I still wanted more. I loved the whole series, not just this book and highly recommend it to anyone.

Read the full series --- lots of charm in both the story lines and descriptions of the village. It makes you want to visit the village and feel the mystic spirits yourself so much so that we are planning a

trip to Ireland next year. Lovely series - you can read one each day at the beach.

From the legends of Ireland and the faeries to the most personable characters, Norah draws the reader through her tale with typical mastery...such a joy to indulge

Loved this book! Perfect ending for this three-part trilogy! Darcy and Trevor are definitely made for each other! The only drawback was the editing in the Kindle format - punctuation was out of place and words were missing in a couple of spots; but the story, itself, was excellent! Nora Roberts makes one feel as if they are right there in the center of the story watching everything unfold and I am so wanting to go to Ireland now!!

My husband is legally blind now and he has always loved to read. He worked for years as a book seller. He had never read any Nora Roberts but he knew I was a big fan. We got the Irish Trilogy on CD first as we were getting to go to Ireland for our 20th anniversary. He has been hooked since then. Tears of the Moon was as magical in hearing as it was in reading. Thank you Nora for being so prolific. And, readers, If you have never taken the time to read one or listen to one; you are doing yourself a big disservice.

Different author same kind of Irish lore. Fantastic.

Always a fun read, makes time on a airplane go by quickly.

The second book of this series didn't disappoint. Nora Roberts is fast becoming one of my favorite writers
