# The Art Of Examining And Interpreting Histologic Preparations: A Laboratory Manual And Study Guide For Histology

## Synopsis

The examination and interpretation of tissue sections seen under the light microscope in a laboratory setting is an example of student-directed, independent problem solving. The proper reading of a histologic section is an acquired art that can only be developed through practice, close observation and repetition. This laboratory manual was designed as a guide for students to aid them in this endeavor. The laboratory study guide/manual was designed to be used as a supplement to any current textbook and/or atlas of Histology. Learning objectives provide the overall goals for each chapter. The narrative of the study guide explains how to systematically breakdown, examine and interpret each tissue and/or organ encountered, without regard to a given histologic slide from a specific slide collection. Thus, this systematic method can be used to examine and interpret histologic preparations from any collection or of any species. The student is encouraged to sketch, label and create a personalized atlas while using this laboratory manual as a guide. The vocabulary that should be developed and used during the laboratory can be found quickly by going to the bold face type in the appropriate segment of the text. Each chapter contains one or more tables in which key structures used in the identification of a tissue/organ are presented, offering the briefest possible summary of important histologic features. As a final short review, an appendix provides summary tables that compare and contrasts the basic differences of several structures that are somewhat similar in general architecture.

## Book Information

Paperback: 108 pages

Publisher: Universal Publishers; Lab Manual edition (May 15, 2004)

Language: English

ISBN-10: 1581125283

ISBN-13: 978-1581125283

Product Dimensions: 7.4 x 0.2 x 9.7 inches

Shipping Weight: 6.4 ounces

Average Customer Review: 3.2 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,000,181 in Books (See Top 100 in Books) #71 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Histology](#) #143 in [Books > Medical Books > Basic Sciences > Histology](#) #191 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Diagnostics & Labs > Laboratory Medicine](#)

## Customer Reviews

This is a lab manual, not a study guide. Don't be fooled by the color picture on the front, it's all b/w inside.

The best book to explain histology and what do we suppose to look for . I study from it and ace my exams
