The Hadith

Synopsis

The entire collection of the Hadith by Sahih Al-Bukhari. The Hadith are sayings of the Prophet Muhammad; this is one of the six major collections. Sunni Muslims view this as one of the three most trusted collections of hadith along with Sahih Muslim and Muwatta Imam Malik. In some circles, it is considered the most authentic book after the Quran. The book was compiled around 200 years after the death of Muhammad.

Customer Reviews

Nice format. Very convenient. Can't beat the price. It's also searchable by key words, so very handy when you can't remember exact wording

I am on a spiritual journey and it is helping me understand things more

Getting this book in print can cost you a hundred dollars if you're lucky. While I prefer print this is certainly the next best thing. The search option makes it easy to find hadith. And that price!!!

as expected

Very informative.

As an atheist trying to learn more about religion (to enable better discussion with adherents of Islam) I bought this to educate myself. The layout is good with each Hadith having a clear reference (Which book, volume, and hadith) it refers to. There are one or two misprints but all in all it is a comprehensive and easy to follow book. It is difficult to review a book that I am very skeptical and biased about so in terms of its printing, layout, binding and size it is very good! I also purchased volume 2, which I am moving onto next and that is much smaller than this one. Summary: If you want to know more about Islam or are a Muslim that wants to have Bukhari in one set of nice books then these are the Ahadith for you!
