Vestibular Learning Manual (Core Clinical Concepts In Audiology)

Synopsis

Part of the Core Clinical Concepts in Audiology Series, the Vestibular Learning Manual is designed to be a systematic, practical application of theoretical knowledge commonly taught in vestibular curriculum of Audiology Doctoral programs. Each assignment covers a specific area of vestibular assessment including: ENG/VNG techniques for ocular motor evaluations, positional evaluations, positioning evaluations and air/water caloric evaluations, bedside evaluations, sinusoidal harmonic acceleration, step acceleration and visual vestibular interaction rotational chair evaluations, basic computerized dynamic posturography evaluations(sensory organization test, motor control test and adaptation), tests of dynamic visual acuity, vestibular autorotation, off axis rotational chair evaluations, and various bedside evaluations used in vestibular rehabilitation programs. Case studies and retrospective questions accompany each assignment, bridging theory and practice.

Book Information

Series: Core Clinical Concepts in Audiology

Spiral-bound: 144 pages

Publisher: Plural Publishing; Spi edition (April 1, 2011)

Language: English

ISBN-10: 1597564117

ISBN-13: 978-1597564113

Product Dimensions: 10.8 x 8.4 x 0.4 inches

Shipping Weight: 12.8 ounces (View shipping rates and policies)

Average Customer Review: 2.0 out of 5 stars 1 customer review

Customer Reviews

"...The book is very well written and includes both technical terminology and professional language, but Dr. Myers has gone one step further with the inclusions of easy to understand real-world examples, such as her description of how the reader can position his or her hands near the head to conceptualize the position of the semicircular canals. The book is full of high-quality pictures of equipment, patient positioning, and outcome data that will also help the reader with the

understanding of the text. The book is easy to digest and is sure to clarify abstract concepts that are difficult to understand with limited practice experience..." ----Elizabeth M. Adams, International Journal of Audiology, 2012.

Bre Lynn Myers, AuD, earned her Bachelor's Degree in Speech Pathology & Audiology and her Master's Degree in Audiology at Bloomsburg University, Bloomsburg, Pennsylvania. She completed her Doctorate in Audiology from the George S. Osborne College of Audiology at Salus University, Elkins Park, Pennsylvania. Dr. Myers opened Berks Hearing Professionals shortly after completing her doctorate, where she provides comprehensive audiological and vestibular services. She is also a member of the Adjunct Faculty at Salus University, where she teaches the vestibular curriculum and serves as a preceptor in the on campus clinic, The Pennsylvania Ear Institute.
