Customer Reviews

This book is very outdated. If you are a teacher thinking of using this book, just dont. It references out of date information. It is cheap for students but I would not rely on this book for anything.

Ordered this item and received it very quickly! Arrived exactly as expected. Very pleased.

Great introductory book that is well organized and covers a lot of topics. Worth the money

I love my purchase. It arrived on time and was in GREAT condition....This purchase was worth every penny I spent and more!!!! Will spread the word with my fellow classmates regarding my GREAT experience.....!!!!!! THANKS A MILLION!!!! :)

Love this book.

I bought it for school and it is wonderful! The book it self is easy to navigate. The service when ordering this book was exceptional! Wonderful service!

Delivery not as expected but otherwise product ordered was received in great condition as advertised.

I got my book in no time but honestly i hate this book. Chapter 3 is 20 pages long and it's sosososo boring. We haven't even had our first test yet, and I dread reading it. I don't think I'm gonna get anything from this book.
