# Freaky Deaky High: Student Body (YA Horror Series)

## Synopsis

Bryce is not the guy he used to be. High school is hard enough without looking like a monster, but for Bryce it's worse. Scars cover his body, and he doesn't remember going to school... EVER. In fact, he can't remember anything before waking from a coma in his uncle's basement. Within minutes of walking through the doors of Franklin Delano High, he wonders if he can survive a single day... But then he meets a girl. And Shelley isn't like the other girls. She sees past the scars to who Bryce truly is. "You are NOT who you think you are." Just as things begin looking up, Bryce finds these cryptic words on a note in his locker. But who is it from? And what does it mean? The search for answers leads him down a grisly path. Buried deep within the only home he's ever known, Bryce makes a gruesome discovery when he finally opens the padlocked freezer in the basement. Hidden beneath the ice lies the key to unlocking his true identity -- and solving the mystery surrounding his "loving" uncle. What Bryce uncovers is so shocking, it threatens not only his life, but the life of the girl he loves. Now he'll have to confront his past if he wants to save his future. Supernatural. Paranormal. Freaky Deaky. A young adult thriller, *STUDENT BODY* is book #2 in the Freaky Deaky High franchise. What is Freaky Deaky High? Good question. Glad you asked. Freaky Deaky High is a YA series of creepy teen adventure books -- wait, scratch that. These stories have way more than just "teen adventure." Romance, mystery, thrills and chills, this collection of teen horror stories prove just how terrifying high school can be. Each book centers around a different student at Franklin Delano High School. And FYI, Franklin Delano High isn't like other schools. Strange things happen there. Strange students go there. In fact, the stories that come out of F.D.H. are so strange that the kids have a pet name for it. They call it Freaky Deaky High. But something else is going on there. Something more than strange... Something evil... Sure, the hallways of Franklin Delano High are filled with ordinary kids trying to navigate the pitfalls of adolescence; working hard to get good grades, experiencing the joy and heartbreak of teenage romance. But what do you do when your teenage romance turns into a teenage horror story? For the students at Freaky Deaky High, getting good grades and falling in love are the least of their worries. They have a much more urgent priority. Staying alive. Scroll up and click the cover to look inside this freaky young adult thriller... If you dare. ## Customer Reviews

Freaky Deaky High: Student Body, a refreshing high school based spin of the classic tale of Frankenstein, is not only funny and quirky, but often times very creepy. There are plenty of nods to the original story that any fan will recognize as well. This story begins with Bryce, a teenage boy who recently came out of a coma. A horrific car crash that claimed the lives of his parents also left him with weird scars all over his body and no memory of his life prior to waking up.

HeÃfÃ Â â ¬Ã â„¸s cared for by Uncle Vic, his only source of love and understandingÃfÃ Â â ¬Ã Â|that is until he meets Shelley. Bryce is a shy and awkward boy, but thanks to his blooming friendship with Shelley, he becomes more self-aware, confident, and strongÃfÃ Â â ¬Ã Â|and thatÃfÃ Â â ¬Ã â„¸s when the trouble starts. While I enjoyed this story and found many relatable aspects, I found myself wanting more after I was finished- more backstory and more future promises. However, overall, I was at the edge of my seat as each chapter flew by. This story is full of mysterious twists and turns, but it is also a love story, not just romantic love, but the love for oneself too. It is through BryceÃfÃ Â â ¬Ã â„¸s self-examination that we too as the reader can contemplate the major questions of ourselves- who am I and who do I want to be?

Freaky Deaky High: Student Body is a great take on FrakensteinÃfÃ Â â ¬Ã â„¸s Monster, but is

viewed through the eyes of a teenager who, like everybody else, just wants to fit in. This book follows the story of Bryce, a new student at Franklin Delano High who has no memories before his Uncle Vic saved him from a car crash. But he remembers how to care for another once he meets Shelley. The only problem is, Bryce's life gets more complicated the closer he gets to finding out the truth. The truth about who he really is. Bryce is led on a wild goose chase with the help of mysterious figures, and knows that his questions have answers. Only through risking it all can Bryce find out what his life means. Mystery, horror, romance, and the kind of action that keeps you reading can all be found inside *Freaky Deaky High: Student Body* and it's a book that shows..you can't judge a monster by its cover.

This book definitely brought me back to my days of reading Christopher Pike and RL Stine, but with up to date characters and attitudes. This was a very interesting take on the life of a franken-teen and the awkwardness of high school. Anyone who has ever felt out of place can easily relate to the character of Bryce. The story held my attention well; I only wish there was a little more detail in the end about Bryce's future and also more of an explanation about his past. Perhaps a sequel is in order?
