Reproductive And Perinatal Epidemiology

Synopsis

Population growth and global health disparities for many reproductive and perinatal outcomes are but a few of the pressing issues facing public health today. Despite growing interest in the field, formal training in reproductive and perinatal epidemiology remains limited, with few available textbooks aimed at providing an overview of the field. In response to this need, faculty from the Eunice Kennedy Shriver National Institute of Child Health & Human Development (NICHD) and CIHR's Institute of Human Development, Child and Youth Health (IHDCYH) developed an intensive, competitive, Summer Institute in Reproductive and Perinatal Epidemiology. The curriculum of this Summer Institute has been developed into a textbook to provide students and researchers with a working knowledge of the substantive and methodologic issues underlying reproductive and perinatal epidemiology. *Reproductive and Perinatal Epidemiology* offers a core curriculum that addresses the epidemiology of major reproductive and perinatal outcomes. From human fecundity to birth and neonatal outcomes, the subject is approached from as international a perspective as possible, and the unique methodologic issues underlying each outcome are discussed. Developed by leading researchers in collaboration with their students in response to their needs and concerns, this is the definitive textbook on the subject.

Book Information

Hardcover: 360 pages

Publisher: Oxford University Press; 1 edition (March 23, 2011)

Language: English

ISBN-10: 0195387902

ISBN-13: 978-0195387902

Product Dimensions: 9.4 x 1.2 x 6.5 inches

Shipping Weight: 1.4 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #397,761 in Books (See Top 100 in Books) #26 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Reproductive Medicine & Technology #48 in Books > Medical Books > Medicine > Internal Medicine > Reproductive Medicine & Technology #267 in Books > Textbooks > Medicine & Health Sciences > Research > Epidemiology

Customer Reviews

Germaine M. Buck Louis, Ph.D., M.S., is the Director and Senior Investigator of the Division of

Epidemiology, Statistics, and Prevention Research (DESPR) at the Eunice Kennedy Shriver National Institute of Child Health & Human Development (NICHD), National Institutes of Health (NIH) in Rockville, Maryland. Robert W. Platt, Ph.D., is Professor, Departments of Pediatrics and of Epidemiology, Biostatistics, and Occupational Health, and Investigator at Montreal Children's Hospital Research Institute, McGill University, Montreal, Canada.

This item was shipped in a timely manner and it was exactly as described. It's very easy to read and user friendly. The information is clear and concise.
