First Aid/ CPR/ AED Participant's Manual

I was very happy to find a new instructor manual for such a good price. I did not want to pay the full \$50 for this manual as AHA has changed their standards and will soon issue new materials. Great purchase!

The book is used and I knew this before placing my order. It came in good condition and met my expectations.

Needed for school - good textbook.

Just what I was looking for

Had about the same information but it's the old version. Need to upgrade to the new version, 2016.

This is just an instructor manual does not have the DVD you can pick the manual for a lot less from other vendors

The product wasn't what I thought it was. I had to return it and quickly was reimbursed.

exactly what i was looking for
