The Ten-Year Turnaround: Transform Your Personal Finances And Achieve Financial Freedom In The Next Ten Years (Wealth Building Series)

Synopsis

Are you struggling with your finances? Discover a new approach that will teach you how to grow your money and enrich your life. Do you want to achieve financial freedom, but have no idea how to get there? Do you feel like you just aren't making enough money? Are your personal finances a mess? Are you stuck in debt and wish you could get out? Do you feel like your current financial plan isn't working or isn't working well enough? If you said yes to any of these questions, it's time for you to begin your Ten-Year Turnaround. The Ten-Year Turnaround is a life-changing financial plan created by financial expert Matthew Paulson that will enable you to turnaround your money problems and finally achieve financial freedom. Paulson, a former McDonald's employee who amassed a personal wealth of \$10 million by the age of 30, has a real knack for demystifying complex financial concepts. His new book, The Ten-Year Turnaround, provides you with the practical financial understanding you need to get the future you desire. Here's what you'll learn: Grow your income by becoming an expert salary negotiator, starting your own business or doing a side-hustle on nights and weekends. Become an expert money manager and avoid the most common mistakes that prevent people from building wealth. Build a dead-simple investment portfolio that will provide a life-time stream of income. Learn proven wealth building techniques that allow anyone to grow their net worth, each and every month. Unlock the power of life-long learning and personal networking in your life so that career and business opportunities show-up at your door. Reduce your taxes, prevent lawsuits and eliminate financial risk from your life. Become a world-class philanthropist and learn how to effectively give money to charity. Paulson has shown hundreds of thousands of people how to take charge of their finances. It's time to stop letting your money control you. The Ten-Year Turnaround will finally give you the tools to take action. If you like down-to-earth financial training, books that give you a deeper understanding of how money works, and authors who actually care about helping you succeed, then you'll love Matthew Paulson's financial guide. Buy The Ten-Year Turnaround to take charge of your money today!

Customer Reviews

Matthew provides an outline that if followed will put you in a better financial position in your life. It is more than just about finances as he address personal relationships and leadership skills that are part of the whole process.I think every high school senior should get this book as they start living their life because I promise this type of stuff is not taught in school unfortunately.Mathew states he is a Christian and he provides Christian insights in the book. I like that as I am a Christian myself, but what I thought was brilliant is he allows people who aren't Christians the right to skip over those parts and he says that in the book.I have been investing for some time and yes there are some things I would do differently, but I can't argue with the path he has laid out for that portion of the book.It is a short read so just get the book and see for yourself.

Excellent book on gradually turning your financial life around. Not a quick fix, but a lifetime fix. I am a Christian and love the fact that he puts God into the plan, but he also explicitly says that if you don't want to read the sections about God you can skip them and everything works the same. This would be an excellent book for college graduates, newly married couples, or anybody that is having any type of financial issues.

I'll get this out of the way at the beginning- I know Matt Paulson personally. One of the things I like about him is that he's not your typical Tony Robbins or Tim Ferriss-esque self-help author. He's not tall. He's not handsome. He's not extroverted. He kinda looks like a turtle and talks with a whiny, nasally voice. But when I meet him, I never feel like I'm being hustled for anything. He's the most ordinary entrepreneur-next-door you'll ever meet, and puts everything in the plainest language possible. Matt is my new business guru of choice; like Warren Buffett, he's so terminally uncool he's cool. Whenever a friend or family member graduates from high school or college, my usual graduation gift is a personal finance book- typically Ramit Sethi's now classic *I Will Teach You To Be Rich*. But Ramit's book always seemed to have a few gaps in it, generally only covering the nuts and bolts of what to do with your paychecks (not to mention an extreme disdain for financial advisors, which was a turnoff for me, coming from that profession). The other option I'd usually consider, *The 4-Hour Work Week: Escape the 9-5, Live Anywhere and Join the New Rich*, falls to the other extreme- it's very inspiring and creative and tends to revolutionize how its readers look at their income, career and work-life balance, but doesn't have the nuts and bolts guidance that Sethi's book provides, and can promote some unrealistic thinking about how simple some of the suggested solutions might be to implement. *The Ten-Year Turnaround: Transform Your Personal Finances and Achieve Financial Freedom in the Next Ten Years* combines the practical guidance of Sethi's book (with an even better section on investing using strategies that I generally recommend to my clients) with a realistic look at how to think about career creatively. Our schools don't teach either of these subjects very well, and new graduates are often plunged into a world where they're still held to obsolete assumptions about how career development works, and thrown at the mercy of a financial industry that preys upon their ignorance with interest rates and fees that would be unconscionable in a just society. Paulson's book gives young people the tools to look at exactly what it is they want out of their life and go for it, but with more realism than most other authors. He gives some stiff doses of reality when necessary: passive income is probably a fantasy; nothing worth having is going to come without hard work; business ownership isn't for everyone; saving money and being frugal alone won't get you to where you want to be financially. And then he provides maps for how to get to where you need to go, with advice from career planning and compensation negotiation, entrepreneurship and side gigs, lifelong learning and continuing education, budgeting, investments, and even insurance and tax planning. It's not always exciting stuff- but it's necessary. Absolutely necessary. So if you're struggling for a grad gift- or just looking to rethink your current career and approach to finances- pick up Paulson's book. It might be one of the best investments you make this year.

I have known Matt Paulson for a few years, and I received a free copy of The Ten-Year Turnaround. The book reflects the qualities that I have seen in Matt: practicality, faith, optimism, and great generosity of spirit. Matt resists hype and offers instead a blueprint for turning around one's financial life through steady hard work guided by wise--and sometimes tough--decision-making. Matt believes, and causes us to believe that genuine financial freedom is within our reach. I am 58 years old, and The Ten Year Turn Around gives me hope that even at my age it is possible to achieve not only debt freedom but also something like real wealth. This is the guide that I will be using as I make decisions regarding work, income, budgeting, debt, and investment.

Put simply, Matt's book is different than anything else out there. Far too many people read blogs and books about how to live on nearly nothing, by spending nearly nothing. That's no way to live. Matt's book, instead, gives you a concrete plan to achieve real wealth and live a life of abundance. It's not about making money for money's sake. It's about using money as a tool to achieve your hopes and dreams. If you want a plan to make that happen for yourself, buy this book. But even more importantly, take the action he recommends. It WORKS.

Granted I read Matt Paulson's works because they are along the same mentality I look at life, but this is yet another great buy for anyone looking for a great bullet point list to set goals with, retool their thinking with, or simply gain some insight and motivation to change their lives in the next decade. Please continue writing these books, they are a consumable length, easy to come back to time and time again, and are from a Midwestern, Christian perspective that I feel right at home reading. Your success and lifestyle motivates many people I know, and I commend you for daily letting your light shine.

This isn't the most in-depth book out there, but I feel that this is a great motivational factor in becoming financially independent. You will absolutely feel motivated at some point when reading through this, and not only to invest, but also to find your niche in life and start your own business. Since I am not religious, and this book contains a few sections dedicated to Christians, I will say that this did not take anything away from the book. They were few and far between, and easy to skip. So if I had to recommend this to someone, it would primarily be on the basis of needing the motivation to start working towards your goals in life. It is great for that.
