"This is truly a must-have for anyone who reads or collects the DC Universe." — New Orleans Advocate

What a terrific book! Extremely detailed. Very high quality stock for cover and pages. Very good binding, which is crucial because the content is so detailed and beautiful that the kids are constantly thumbing through it. Note that this is NOT a character encyclopedia. It's a very detailed history of where DC was in the past and how they got where they are today. Really awesome!

Brilliant book! Better than I expected and way bigger & heavier! The illustrations are beautiful and

has a vast wealth of awesome information that any DC Comics and / or comics fan will Love! The case that comes with the book is beautiful with the New 52 Justice League drawings by Jim Lee. I just don't know why they cut off FLASH, AQUAMAN & CYBORG from the lineup? Oh well, I HIGHLY recommend this book! A+++

Bought this for my husband for Christmas, he absolutely loved it! It is a great piece to have in his office to give him something to look at when he is taking a break, or to display as artwork when he is not using it

Beautiful book for any comic/superhero fan. Highly recommend to anyone who loves DC Comics. You will spend hours going through this book.

As a bit of a comic geek, I was thrilled to receive this as a gift. The contents of the book are sure to entertain anybody who has a mild interest in this entertainment medium. Unfortunately, the physical quality of the book could use improvement. I had to send the first one back because the binding was all torn up. The second one I received was still torn up, just not as much. I'm sure as I continue reading the book this problem will only worsen.

This book is massive and the information is incredible. It is 50% off so you cannot beat the price. Buy 2 and give one as a gift. You will love this book and learn a lot too.

My partner & I love this, we're such comic geeks. He will love reading this when he comes home in two weeks.

Gave this as a gift and they love it!
