Inspiring Lessons Learned from People Living with Cancer

“Bernie Siegel is one of the greatest healers of our time. The stories he shares in Faith, Hope, and Healing demonstrate the healing effect of treating cancer not just with conventional medicine but by changing the way you think about your disease, the way you act toward those who love and care for you, and the way you feel about yourself. The mind is the most powerful tool you have for fighting back.”-Deepak Chopra, author of *Jesus: A Story of Enlightenment*

Praise for Bernie Siegel for *Prescriptions for Living*

“If you or a loved one have to go through major medical care . . . this book can be . . . life-saving and soul-saving.”-Andrew Weil, M.D., the New York Times bestselling author of *Spontaneous Healing* and *Eight Weeks to Optimum Health*

In this collection of first-person accounts, doctor and author Siegel (*Love, Medicine, and Miracles*) brings together almost three dozen cancer patients (or close relations of) to share their stories and the lessons they've learned. Many entries tackle the moment of diagnosis (the first, from survivor Angela Passidomo Trafford, opens with the line, "How many times do I have to have cancer?!"), while others pick up at the moment the diagnosis first hits home; still others focus on the end, like Ann Martin Bowler, whose sick brother passed days after a reinvigorating near-death experience. Lynn Zeller contributes a list of the "eight practices" she discovered through cancer that have led to a "wonderfully expanded experience of life" (including a focus on gratitude, mindfulness, and the idea that the universe "is in a conspiracy for my good"); Edwina Ford focuses on her afflicted husband's admiration, and efforts on behalf, of Lance Armstrong's post-surgery Tour de France comeback. For each piece, Siegel provides a reflection and a moral ("Life's difficulties are what teach us to grow") that clarify and encourage. Anyone struggling with cancer will find many relatable voices and, in Siegel, a compassionate expert commentator. Copyright © Reed Business Information, a division of Reed Elsevier Inc. This is so very helpful. It was suggested by a professional in the health-care field, and it has lived up to her recommendations. I have suggested it to others. It is not only for cancer folks.

These were great stories of cancer survival. They are especially helpful when a person has just been diagnosed.

Inspiring lessons

I have been a devoted follower of Dr. Siegel for over 20 years now. I have purchased numerous copies of "Love, Medicine and Miracles" to share with friends of mine going through tough times. He has managed to provide even more insight and hope with "Faith, Hope and Healing". Dr. Siegel is truly an original and provides hope and healing in a hurting world.

This is a great book for putting your arms around a diagnosis of cancer and how to deal with it. A positive attitude and hope is crucial to getting better. Faith takes some of the burden of fear and angst away. Good read. Bernie Siegel does a terrific job helping one learn to cope with this diagnosis.

Wonderful book, inspiring.

Bernie Siegel shares his experiences and knowledge with those of us who need it!

Excellent!
