Luscious Justice: A Paranormal Mpreg Gay Romance (The Omega Date Diaries) (Volume 1)

Synopsis

Can love and justice co-exist between two shifters caught in moral combat? ***Luscious Justice is a standalone novel; you don't need to read any of the other books in the OmegaDate Diaries series to enjoy this one.*** Jax Hollister is no stranger to shifter prejudice. After watching his older brother convicted of a crime he didn't commit, it's the entire reason he left his pack to become a shifter defense attorney in Capitol City. Jax loves his work, but there's a gaping hole in his personal life. No longer content with merely defending shifters, he wants to find one he can love—an omega he can claim as his very own. Prosecutor Kris Jameson is ready to call off his search for true love. Abandoned at birth and raised by humans, Kris seems destined to repeat the cycle of abandonment, falling over and over again for self-centered alphas that won't commit. Deciding that OmegaDate—a glorified hook-up app as far as Kris is concerned—has brought nothing but grief to his life, Kris decides to delete the app for good; but not before a message from a sweet and gorgeous alpha comes his way, prompting Kris to give the app one final try. And though first date with fellow attorney Jax Hollister begins with intense mutual attraction, it soon turns disastrous, leaving them both trying to forget that the encounter ever happened. But cruel fate has other plans, and Jax and Kris find themselves pitted against one another in a professional and emotional battle that neither one is prepared to withstand. And when it becomes clear that there's more at stake than just their careers, the anger and passion that threatens to consume them may end up changing the course of their professional and personal lives forever. Especially when it becomes clear that there may be a third life involved in their collective futures| AUTHOR'S NOTE: This book contains hot and lusty male on male action involving frenzied bareback sex, shapeshifting wolves, knotting and a sweet and tender happily-ever-after. Not recommended for those that blush easily.

Customer Reviews

Odin Nightshade is on a mission – a mission to make you moan, groan and cry out for mercy. Join Odin and his crew of sexy characters on a journey of love, lust and intense exploration of your wild and sensual sides. Imagination knows no bounds, and nor should your fantasies –

A book with a lot of potential that fell off the cliff at the end. Good writing, pretty good character development...and then an all too easy ending that just felt dull. PS: The title novel is not even 30% of this download's full length. Don't be fooled by the 500+ page count it shows. 70% of that is other little stories that aren't even related to the main title. This feels like a sneaky way to trick buyers into thinking they are getting a long book. Quite frankly, as a reader, I'm getting sick of it. A small story or something at the end is fine. Having more than half the total page count be extra crap is just shady.

I enjoyed Jax and Kris' story, I just wished it would have been longer, more fleshed out, it felt a bit rushed. The setup to getting them together was great, the first date was really good... until it wasn't. Their different points of views got in the way of their budding romance, it was very well done. I found myself agreeing with both of them because to me, each one of them had great points. Sadly after that, the story took a different tone. I felt too much time and focus was devoted to the wrong things because in the end neither one of them came to realize on their own the wrong of their ways. Jax and Kris each have valid points of their views but also flaws, what I liked is that both characters are also wrong because the issue is not black and white. The biggest problem for me and what keeps me from giving this five stars is how they actually got together. I would have liked and enjoyed more them talking about their issues instead of simply letting their instincts basically force them physically together. It bothered me because I like both characters and I feel they deserved better. Also, for me at least, when they finally 'talked' about what went wrong between them, it felt more like simply putting things aside to enjoy the moment than making progress and moving on. The end felt a bit rushed, don't get me wrong, it was a nice ending but the way things were left, it makes me worry about their future... yes I'm one of those people who keeps thinking about characters even after a

story is over. I voluntarily received and reviewed an advance readers copy of this book.

Needs some minor editing. Liked the story but disappointed as it is only about 30% of the book. Rest of the book is full of "bonus" which to mean just translates to the author ticking the readers into believing they were getting a full size book.

I voluntarily reviewed an Advance Reader Copy of this book in exchange for an honest reviewThis was an interesting and fun book. The OmegaDate Diaries storyline I'm sure will yield a number of fun and interesting books in the near future. I have read several of Mr. Nightshade's books and so far he hasn't let me down yet. I look forward to reading more of this interesting series. Jax is an alpha wolf who realizes that there's something missing in his life. Kris is an omega who's tired of guys who just want a hook-up. Kris is on the OmegaDate app but thinks he should maybe delete the app as a bad idea. Jax signs-up for the app hoping to meet his "one and only" and texts Kris and they click. They find out that their both lawyers but on opposite sides of the aisle. Kris was raised by humans whereas Jax was raised in a pack. Kris' opinion of shifters in the city that end up in jail is that they are all at fault every time. Jax has been fighting the legal system that he see's as hateful and extremely prejudiced against shifters. Kris is caught out at a bar where he realizes that he is going into heat. Jax is also at the same bar and knowd he is the only one who can help Kris and will, despite their dramatically varying opinions on shifters. Kris ends up finding out that he's pregnant and is torn about whether he should tell Jax about the baby or not. At the end of the trial Kris decides that it's time to tell Jax. Before he can tell Jax he suddenly goes into early labor. At the end of the trial and the safe delivery of their daughter each finds himself looking at and perhaps rethinking their positions on shifters. These two have a lot going against their relationship. How or will they overcome these major obstacles? Is one or the other right in their opinions or do they find that there needs to be comprises and in depth rethinking of their opinions on each side? I think we should all keep an eye out on whether there will be more books coming in the OmegaDate series.

Jax Hollister, lawyer and alpha shifter, is lonely and looking for an omega he can love and care for. He takes a case pro bono, of snide, arrogant Nathan Peverell, accused of attacking and seriously injuring two young girls, which he denies doing. Jax believes him, and is fed up with a system constantly convicting and imprisoning innocent shifters. Kris Jameson, also lonely, is an omega shifter working in the justice department as a prosecutor. Both men had previously signed up at a dating service called Omega Date to find mates. They chat on line, discover their similarities, and

decide to meet. They are instantly attracted to each and feel a mating bond, but a disagreement leaves them angry with each other, and they part. Weeks later they are stunned to find themselves pitted against each other in court. Kris is in heat and Jax is wild with uncontrollable lust. Their one hot sexual encounter leaves Kris pregnant, which he hides from Jax. Both have trust issues. I don't want to spoil this exciting, well written story of the trial, tribulations, and birth both men experience. What I liked about this book was the gradual love, trust and understanding they established together. I received an advanced copy of this book for an honest review. Truly loved and enjoyed this book. Odin never disappoints with his imaginative mind and stories.
