Book Information

Paperback

Publisher: B&W BRUCKMEIER PUBLISHING; 1 Crds edition (July 2015)

Language: English

ISBN-10: 1591035104

ISBN-13: 978-1591035107

Product Dimensions: 0.2 x 5 x 7.5 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 4.2 out of 5 stars 50 customer reviews

Best Sellers Rank: #18,675 in Books (See Top 100 in Books) #15 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Infectious Diseases #22 in Books > Medical Books > Medicine > Internal Medicine > Infectious Disease > Communicable Diseases #25 in Books > Textbooks > Medicine & Health Sciences > Medicine > Basic Sciences > Pharmacology

Customer Reviews

Brand new

This has helped me a lot during my clinical rotation as a nurse practitioner student in a family practice clinic.

Handy pocket set! I wish it had clindamycin on it and update recommendations for empiric antibiotic for gallbladder and other biliary tract diseases. (There is a lot of amp/sulbactam resistance so it is no longer the first line therapy). It's a little out of date, but otherwise a handy pocket tool.

This product is awesome. This ad does not do it justice. It is 2 pages front and back. Lots of information. I'm an FNP student and I use this every day I'm at clinics.

I'm an NP student. Was really looking forward to using these in clinic, but they are just too busy. Hard to locate the info you're looking for in a timely manner. Ends up being easier to search and app quickly instead of flipping through these cards.

Tiny tiny print, thought it would be better info Easier to use my smart phone

It is useful... But only with certain drugs. There are some on here whose names I've never even heard of (SoCal Pharm.D here). Ceftriaxone isn't even on the coverage sheet.

This is wonderful and so helpful. As a new practitioner, I can look at this card to refresh my memory on which antibiotic would be more useful for whatever condition. Love it.

Fits perfectly in my lab coat pocket. Use it as a reference on a daily basis in the primary clinic I am at.
