# Kabbalah, Science And The Meaning Of Life: Because Your Life Has Meaning

## Synopsis

Kabbalah, Science & the Meaning of Life traces the milestones of the evolution of science with which we are familiar, such as Newton's and Einstein's theories but goes further to present the science of Kabbalah as the basis for understanding the hidden parts of reality which scientists are now discovering. While other sciences research the definable world around us, Kabbalah teaches us how the spontaneous changes occurring within us affect our surrounding reality. The wisdom of Kabbalah enables us to monitor those changes and control them, and in so doing change our world for the better.

## Customer Reviews

Very enlightening book discussing the scientific process and the introduction to the concepts of Kabbalah.

this is a great book.

AAAAA+ AWESOME FINEST QUALITY AND MATERIAL.ARRIVED AND PACKAGED WELL .  
GREAT BOOK FOR WISDOM PERFECT THANKS.

Enjoying it immensely

interesting

This is a very interest book. It has you thinking about your purpose in this world. I recommend everyone to purchase this book.

Rav Laitman wrote a very approachable work where he outlines some of the parallels with the emerging theories of quantum physics and the thousands of years old theories of Kabbalists. The book itself is broken into four distinct sections - a discussion of Kabbalah and Quantum Physics - which is about a third of the book. The next section is a brief discussion on the Essence of the Wisdom of Kabbalah. The third part discusses our perception of reality and the limitations of the senses. The final section discusses the "spiritual gene" and the pathway of spirituality and nature and how they intertwine. A good book for anyone interested in the topic.

For all those new to the world of Kabbalah... the wisdom of Kabbalah.... this book will give you a deep look into the subject. For those who want to know more, this book will give you answers to most of your questions. It is so interesting that you won't want to put it down and it will give you an appetite to know more and read more. It's a book I highly recommend to those seeking answers to questions about the meaning of life and the wisdom of Kabbalah. Enjoy
