Lost Amusement Parks Of The North Jersey Shore (Images Of America)

Synopsis

The Jersey Shore has always attracted people seeking relief from summer heat and humidity. Long before Europeans came here, the native Lenape clammed, fished, and played games on the beach and in the surf. These original people could scarcely have imagined that, by the end of the 19th century, the 120-mile-long coastline of New Jersey would be dotted with amusement parks featuring gentle kiddie car rides, terrifying roller coasters, merry-go-rounds, and fast-food emporiums. James Bradley in Asbury Park and William Sandlass Jr. in Highland Beach created mass entertainment for hundreds of thousands of people. Their seaside recreation centers, along with those in Long Branch, Bradley Beach, Pleasure Bay, and others, endured for years but are just fond and fading memories today.

“Old amusement parks are unlike old soldiers – they don’t fade away.”
—The Record

Authors Rick Geffken and George Severini bring together rarely seen images from the Library of Congress, local historical societies, and private collections to document how the Jersey Shore became the most famous vacation and recreational destination in the coastal United States. The remarkable details in these pictures capture a simpler way of life in our country, when families took their children to boardwalks to savor candy apples, popcorn, hotdogs and hamburgers, and, of

course, the rides.

Not too fond of this book. Not too many stories about the parks but there is lots of pictures.

Nice set, great for the collectors.

enjoyed

Great trip into the past
