Fat Bombs: Delicious Low-Carb High-Fat Sweet And Savory Ketogenic & Paleo Fat Bombs

Synopsis

Mouth-watering Sweet & Savory Ketogenic fat bombs! “Fat bombs” are one part of the Ketogenic diet, but decidedly a fun part! They’re often made from a selection of fat-filled ingredients such as coconut oil, nuts, butter and seeds. They’re designed specifically for those who are following the ketogenic diet. As you know, those who are on the diet commit to a high-fat low-carb diet which allows for ketosis state to be encouraged in the body. Since fat is the main source of fuel in the ketogenic diet, and carbs/sugar is secondary, Fat Bombs are useful for filling this quota. They can be either sweet or savory. Fat bombs are, as per the name, high in fat. However, remember that there are good fats and bad fats. The kinds that make up fat bombs are good fats. Similar to the paleo diet, these healthy fats can help to reduce the excess inflammation in your body. Ketogenic fat bombs, for the most part, use coconut derived fats as an ingredient. Coconut oils also solidify into a solid form when kept in the fridge too, which makes these fat bombs both tidy and convenient
