Customer Reviews

For the most part, we loved the music. It isn't super challenging, but we didn't need it to be. The down side is that the CD doesn't match the music for some of the songs. By that I mean the title of the CD says one thing, but it's really a different song. Also, the cd isn't only accompaniment. Other than that, we love the music.

The CD with this book does not contain a music track with just background music. Other music books I have purchased play 2 tracks for each song...one with and one without the part you are playing.

Just as described.
