Constitutional Law, 18th Edition (University Casebook Series)

Synopsis

The Eighteenth Edition provides comprehensive coverage of all areas of constitutional law, including judicial review, separation of powers, federalism, due process, equal protection, free speech, and religious liberty. It emphasizes the current state of constitutional law and aims to enable students who use it to practice constitutional law as lawyers. It also seeks to illuminate the historical, theoretical, and philosophical background that bears on constitutional law and informs its practice. The 18th edition thoroughly revises, updates and streamlines this classic casebook, emphasizing contemporary problems in areas from the health care decision to the war on terror. Highlights of the 18th edition include updates on the commerce clause, taxing, and spending in the light of the Obamacare decision and the changing profile of free speech regulation in the age of the material support of terrorism statute.

Customer Reviews

I kind of hate that my teacher has to assign extra reading because many of the note cases are much more important than the editing of this book lets on. I really like the wide margins, though. I hate the paper. It would be really good for highlighting if I used highlighters but it seems pretty resistant to pencil lead. Also, if you used highlighters you would probably ink the next several pages. I already hate that so I use colored pencils as highlighters. In this book, colored pencils are super permanent because if you erase you either tear the page or wipe off the words.

Great reading.

Yikes. The writing could be better. I think an editor needs to cut some unnecessary phrases.

Awesome, received it quick, so very happy with this book!

As advertised & price was right.

Came as described! 's rental program is great!

The binding is terrible, the first 20 pages are like falling out, other than that it's ok.
