Math In Focus: Singapore Math: Student Workbook, Book B Grade 1

Synopsis

This consumable student workbook is part of the Math in Focus: The Singapore Approach curriculum series. Book 1B, this workbook accompanies Math in Focus' Student Book Grade 1, Part B, and provides opportunities for practice, assessment, and skill-development. Cheery illustrations and easy-to-understand text give kids a fun atmosphere to work in. This book's exercises focus on finding weight, charts & graphs, numbers/addition/subtraction to 100, mental math strategies, time, money, multiplication & division. Each chapter includes "Put on Your Thinking Cap" problem solving exercises and a chapter review/test. 263 perforated pages, softcover. Grade 1. Student Book B.

Grade Level: 1 and up

Customer Reviews

Quite helpful

My children's school uses this curriculum so I'm grateful that I was able to buy a copy for home. I am able to see what they are learning and help them without confusing them because it's the same book.

I love this curriculum. It makes it easy to understand the concepts. The teacher guide is useful. At this level you can work with out the teacher manual however as you move to the higher grades and may need the answer keys for backup. The only downside to using this curriculum is the cost of the

teacher edition .

I use these 'Math in Focus' workbooks for summer math tutoring for my kids. The Assessment book (in particular) is good to use to measure mastery of objectives. (basically a test book)

Just purchased this workbook for my son - looks very challenging - is there an answer key for this?

Really helps in aiding my child through lessons he learned in class that week... It is the same lesson plan being taught in his class

Just as expected. No complaints.

This book is very helpful for as I assist my grand daughter with home work.
