The Michigan Counting Book (America By The Numbers)

Synopsis

Students who have learned their ABC's will now have even more fun learning to count with this delightful addition to their library. Michigan flora and fauna take a starring role in this new title, taking students from "one Karner Blue butterfly" to "twelve jugs of maple syrup." Teachers and parents alike will find themselves reading and counting over and over again while everyone learns fun Michigan facts. This is a wonderful companion book to *M is for Mitten: The Michigan Alphabet Book*.

Award-winning wildlife artist Michael Glenn Monroe began his career at a very young age. A self-taught painter, Michael spends his time meticulously honing his craft, often teaching himself many new and unique techniques to add to his paintings. Michael began his publishing career with Sleeping Bear Press in 1999 when both *Buzzy the Bumblebee* and *M is for Mitten: A Michigan Alphabet* were released. His knowledge and experience with landscapes and wildlife were a perfect match for *Mitten*, as well as subsequent state alphabet titles (*S is for Sunshine: A Florida Alphabet* and *L is for Last Frontier: An Alaska Alphabet*). Michael and his wife, Colleen, share a home in Brighton, Michigan, with their three children, twins Matthew and Natalie and John, born in May 2001. Kathy-jo Wargin is the author of more than 30 books for children, including *The Legend of Sleeping Bear*. Her many awards include an IRA Children's Choice Award for *The Legend of the*

Loon and an IRA Teacher's Choice Award for Win One for the Gipper. Kathy-jo lives in Minnetonka, Minnesota.

Love this book! Perfect, when I read it the first time it made my heart swell with pride for our beautiful state!

Fun counting book that covers some not well known facts about our great state..even has math problems in the back that my 4 year old loves to do!

Love Michigan, Love this book.

I use this book in the beginning of the school year here in Michigan. The 3rd graders spend the year learning about Michigan and this book is a great introductory piece. It also has a cross-curricular aspect.

I bought this for grandchildren. We live in Michigan and the illustrations are outstanding. The text is well written.

This book helped my little sister to learn how to count. She loved (and still loves!) this cute book that teaches you how to count. We also live in Michigan, beautiful Michigan, and that helped my sister, too. It is truly a classic, and of course, like most good, small books, was written by Kathy-Jo Wargin. A MUST READ!!!

A great book about all the things that make Michigan memorable. I got this book for my 3 year old and found the text a little too involved for a toddler, but great for my elementary age nephews. My sister lives in Florida and she loves to see all the Michigan things she misses while reading a book to her kids.
