## Customer Reviews

This book is amazing to learn the real basics of internet marketing. To learn how to face certain

challenges and guides you toward becoming a better and more unique person. I love that I can read this right on my phone it makes it easy and its affordable. Totally LOVED it!

Great tips

Happy

I read the first chapter and never picked it up again. It just wasn't what I had expected when I read the description.

Read whole book on Kindle while driving up north for Christmas. Not general ra-ra ideas but chock full of day by day and month to month clear plans to follow. One of the most helpful books I've read on the subject after many years in the field. And these two girls are living proof of what they teach. If we follow their great ideas we'll arrive at the top too!

Good easy read

I really liked this book. My husband and I both read it and enjoyed it. It arrived in a timely manner and was in great shape.

Read this on the plan to vegas - loved it!
