Customer Reviews

Perfect

I was a little hesitant to purchase this when I read some reviews about so many sharps & flats in the arrangements. Since I am no expert and my piano lessons were years & years ago, I am not quite up to tempo on some of the songs yet. However, I didn't expect to play everything perfect at first. Now I have a goal!!

Unfortunately, this book arrived with at least 5 pages separate or loose from the spine. I tried to tape the pages back in, but of course this affects any open page in the book. A binding repair will never be as good as the original.

My wife enjoys doing plays so she has bought many items like this in the past. Better then looking

all around town and a lot cheaper than the book stores.

I wasn't sure what to expect when I read the reviews prior to buying this sheet music. But when it arrived I was very satisfied with the product. I would call my piano skills "intermediate", and depending on the song, this book had some easier songs and some that were a good challenge. I enjoyed it and would recommend it to others.

the book was new and what I expected; very pleased.

This is titled "easy piano." It would be easy only if you are highly proficient on the piano. It would be better if it were sold as "for intermediate" players. If you have been playing for less than 5 years (and that is a dedicated 5 years), then you should not buy this book. If you have been playing off and on for 10 years, you still should not buy this book. I've looked for a true "easy" version, but have not found one yet.

There is only one song, Mamma Mia? Why is Kindle not the same as book??? In the paperback it said it has 144 pages but in Kindle it has only six pages.
