Customer Reviews

This is a fantastic set of postcards of Disney animated films. This package covers about 25 years of Disney's recent history, from "The Little Mermaid" in 1989 to "Big Hero 6" in 2014 (complete list of movies at the bottom of review). Each card measures approximately 3.75 x 5.75 inches (9.5 x 14 cm). The front of each card features a piece of artwork from the film(s). The back is indeed in the style of a standard postcard, with a few lines for the address as well as a place for the postage stamp. The art is absolutely fantastic, ranging from near-completed designs to the earliest character sketches. Much of the imagery should be very recognizable for fans of the Disney movies. I've included some photos of the postcards in this review (for more images, you can visit my blog - link can be found in the comments section or by clicking on my reviewer profile). List of Movies (there are 10 postcards for each): - Little Mermaid- Beauty and the Beast- Aladdin- The Lion King- Mulan- Princess and the Frog- Tangled- Wreck-It Ralph- Frozen- Big Hero 6*NOTE: For postcards from early classics like "Snow White" and "Cinderella" you'll want to pick up a different set: The Art of Disney: The Golden Age (1937-1961). Also, Pixar movies like "Toy Story" and "Cars" are featured in a separate box: The Art of Pixar: 100 Collectible Postcards

Pros: The quality of the art on the postcards is to be expected. Some of the concept art is really surprising and fun. They come in a sturdy box with a nice design. Cons: These postcards are not comprehensive. Films from this period like Pocahontas and the Hunchback of Notre Dame - two visually stunning movies - do not make an appearance, while movies like Tangled, Wreck-It Ralph and Frozen are more heavily featured.

Like other Disney box sets I've purchased, you get about 20 really great cards, another 20-40 good ones, and about 40 that I would never really use, mainly the weird blurry computer generated ones. I can say the same for all other Disney postcard sets, I've bought them all. All in all, it's definitely worth the price though, you get your money's worth, even with the 40 or so cheap-y ones.

I bought the first set of these for my mother-in-law and she loved it so I bought this set. Very Vivid and sure to impress any Disney lover! These postcards would be amazing to send out but are even better to keep for yourself. Eventually I plan on picking up the Pixar sets too

I got this set for my birthday. I love to send out snail mail and was running low on postcards. These are great. They give me a large selection of characters, movies, and styles to choose from. I love seeing the concept art and abandoned ideas from some of my Disney favorite films. These post cards are durable, colorful, have a huge selection of styles and movies, and the price is unbeatable. Recently my daughter has discovered the joy of sending snail mail and often sneaks into my stash to pick one of these out to send to her friends. I'm really glad I took a chance on these and will definitely look at ordering other similar sets when these start to run low.

This blew my expectations WAY out of the water. They are perfect in every way!

Product excellent delivered quickly.

Great draft drawings of Disney movies. Paper is a little thin for sending overseas, and be sure to use a ball point or a rollerball pen, if you use a fountain pen (not likely, except for odd-balls like me) the ink will bleed.
