As a child, my mother and I would always fight over my hair. To end the fighting, she bought this book for me and wished me luck. It worked well. 25 years later, my brother now has two daughters with my massive amount of hair. While Pinterest can provide you with directions on how to create these braids, twists, and bows, it is an easy go-to source for him to learn how to tie up his little girls' hair.

I had this book as a kid and I loved it then. I have 3 girls and no idea how to do hair! I remembered this book and was so happy to find it on Amazon! It is exactly as I remember it! My kiddos love it just as much as I did!

I had this book as a kid as ordered for my daughter

A fun book

Illustrated fun ways to braid the hair of children or adults as well as American Girl dolls. Easy to use.

It did not have the same cover as what was displayed but it has the instructions I was looking for.

great beginner book for easy braids!

This book helps you come with ideas to do your girls hair. It also explains hair types and different ways to do the hair. Now I do my daughters hair all the time and she does not even want her mother to touch her hair anymore.
