I don't quite understand the reviews of this, saying it is for very advanced pianists. It is NOT. It is definitely for beginning to intermediate pianists, and I almost returned it for that reason. The arrangements are extremely simple and are mostly from Broadway musicals. I was imagining a wider cross-section of classical, pop, romantic, religious, ballads, etc. The most beautiful piano solos surely encompass more than Broadway pop! My training was mostly classical and there are MANY classical solos that could have been simplified down for this book to add another level of interest. I just feel this is a big book of very limited scope and not that exciting for someone who has much musical exposure. But it is relaxing to sit down and sight-read, and I'm keeping it for my little ones to work through once I teach them to play piano.

I have only looked a few of these songs but they are exactly what I was looking for. Not easy, I would say they were for an intermediate pianist. Which is what I wanted. These are not songs you can just sit down and sight read if you are a beginner. Overall very pleased!

I love this book, the songs are great. I've been playing piano for around 4 years, but only got really serious about it in the last 2, and some of these songs are a bit too advanced for me, but there are already plenty I have been able to learn and have loved. The only thing I wish was that it had the lyrics with it as well, as I don't sing but I have some friends who like to sing as I play.

there are a lot of obscure songs in here that i've never heard of, but they're pretty. they're a little bit of a challenge. it will take a few times of playing them to get them perfect.

I'm somewhat intermediate level but didn't really play over 10 years. This book contains easy enough arrangements of beautiful pieces. I only wish there were fingering guides available.

I love playing piano and this book has some great songs. Unfortunately, none of the songs have any chords displayed. So, if you largely improvise with your left hand using chords, this book isn't for you. If I could return it, I would.

I consider this Piano book one of the best I have ever played. I am an advanced pianist who hasn't played in 30 years, but I add chords as I go along. It tends to be a little easier than an intermediate or advanced song book, but it is well worth purchasing and adds hours of enjoyment to play all the piano solos.

CHRISTMAS GIFT FOR A GRANDDAUGHTER WHO HAD NOT BEEN ABLE TO SPEND A LOT OF TIME AT THE PIANO. I TOLD HER 15 MINUTES A DAY AND YOU'LL CONQUER ANY OF THE PIECES YOU WANT. SHE LOVES IT.
