## Customer Reviews

So I have never read the comic but it has helped my 3rd grader take up an interested in reading. That makes it a winner in my book :)

As others have mentioned, this book is riddled with errors. I bought it to encourage my son to read, too - this may inspire him to be a copy editor! I agree with the other reviewers that the story itself is dull and the writing is awkward, in addition to having issues with the duplicate panels and such. The typeface is also ridiculously small. I hope the next edition is better; there are so many other quality graphic novels and comic books that I will check out first, though. This one earns 2 stars instead of 1 for holding my little guy's attention.

I couldn't decide whether to give this book a one star or a two start. I was so disappointed in the book. There were so many errors in the book, spelling and duplicate panels! My 10 yr old didn't like the book either. He loves Minecraft! But the story wasn't well thought out. It was so obvious that this book wasn't even edited. Nobody proof-read this book before publishing! I like that the pictures were in Minecraft. That was unique, but that's about all. A major disappointment. Don't waste your money. I liked one posters comments about going through the book with your child and seeing who could catch the mistakes first!!! =)

Bought it for my little girl and she loves everything Minecraft. This item is probably selling because people are happy their little kids like it, but as an adult, I expected more content rather than living off the Minecraft hype. Totally not worth it. if you think that all that matters is if your kids like it, then if it sold for \$20 you'd still have no regret. You have been warned!!!

The price is outrageous for what you get. It is only 50 pages. Being a "Collection" I expected it to be close to as thick as the Minecraft graphic novels we've purchased for almost half the price. My kid enjoyed reading it for about 20 minutes and then she was done. Waste of \$11 to me.

This book was great I loved it it was fun to read. I think you will like it if you like minecraft I do believe there is a series so i recommended this to you great book for me hope it is for you

It got my non reader to read something....so that alone gets it 5 stars

pitiful, way too dark, way too small/short for almost \$10..... just pitiful is all I can say..... a kid is not going to like this item IMO..... if anyone says it's good then they need to look at the item first..... I'm going to buy something else for the grandson this was intended for..... just pitiful.....
