If you have a dutch oven and think you know all there is to know about it you need this book. it is about the different ways to cook with a dutch oven. it is about how to control the heat. it is about preparing your food and is loaded with recipes that will make you the favored cook at home or at camp. it takes you step by step. I cherish this book and go back to it time and time. to my friends and family that have black pots this is what I give on birthdays.

When I opened this book to get started with my cast iron cooking, I was stunned at the great information provided. Step by step on 'how to' and 'why'. This is a great way to learn the right way to cook with cast iron cookware, and my oh my, what a marvelous way to cook your food. (Reminds me of the pioneer days of how they cooked over the open hearth or the cowboys with their chuck wagons). Truly a great book to have if you want to learn and understand what 'black pot' cooking is and the appropriate way to cook it! Have fun!

Black Pot for Beginners, along with our new dutch oven, changed our camping habits forever. No

more subsisting on burgers and hot dogs. We prepared and enjoyed chicken pot pie, lasagna, and pineapple upside down cake on our last camping trip. We can hardly wait for the next camping season to try out more of the recipes. The tips for care and preparation are an essential part of the book. Simply put and easy to follow, the instructions make use of the dutch oven a foolproof adventure in dining.

If I were a camper, this book would be a great resource for learning campfire cooking. However, I bought the book as a gift to teach simple stove top cooking techniques to a brand new cook using a small Dutch oven. My college student kept the book & the Dutch oven but I'm not really sure if the book will be a good resource for him.

Good directions for seriously seasoning old cast iron. Seasoned an 8" skillet that I cooked my first food on when I was 7 and a 10" omlette pan I got for my mom on Mothers Day in 6th grade, now 50+. Now both look better than ever deep, dark, shiny black and perform much better. Yes bacon and eggs stick some, clean up is easy. Another tip author has is to preheat any cast iron in the oven at 4-500 degrees to heat evenly because cast iron apparently doesn't. Nice, good trick.

Really not a bad book but is geared more for campfire cooking not indoors...but you can always use the recipes and use your black pots on or in your stove

My wife is learning to cook with the black pot. Very handy book to give her lots of ideas to make good meals.

Great book. Covers the basics and I am trying one recipe at a time.
