Magic Eye III, Vol. 3 Visions A New Dimension In Art 3D Illustrations

Synopsis

This collection of fun, engaging 3D illustrations is perfect for Magic Eye fans everywhere. In bookstores and living rooms all over America--indeed, all over the world--people are scarcely believing what they see! Is it magic? No, it's Magic Eye 3D images! Magic Eye has left amazed and enthralled millions craving more. Stare into these seemingly abstract fields of color (no funny glasses required) and an enchanting 3D image materializes. You will be astounded by the depth and clarity of the totally hidden image that develops like an instant photo.

Best Sellers Rank: #200,085 in Books (See Top 100 in Books) #61 in Books > Humor & Entertainment > Puzzles & Games > Magic #378 in Books > Humor & Entertainment > Puzzles & Games > Puzzles #680 in Books > Arts & Photography > Graphic Design > Techniques

Customer Reviews

Magic Eye(r) ignited the worldwide 3D craze of the 1990s. In fact, Magic Eye I, II, and III appeared on the "New York Times" best-seller list for a combined 73 weeks. More than 20 million copies of Magic Eye books have been sold in more than 25 languages. The weekly newspaper syndicated comic strip has appeared in newspapers around the world since 1994 and became the fastest start-up syndication in the history of Universal Press Syndicate. My 7 and 9 year olds, as well as all their cousins, enjoy the Magic Eye books. So I ordered a couple for Christmas. One good thing is that to help you know if you're seeing the correct image, they have black and white answers in the back. There is something vaguely disturbing in the "answers" section

of this one. For page 28, the answer shows a "Chainsaw Teddy," an image of a teddy bear getting its head cut off by a chainsaw. The actual image on page 28 is a baseball player, catcher, and umpire. Very odd. Also in the answers section, for page 5, the cupid with his arm stretched in front of him has the caption: "(rhymes with tubby) Rub." (I don't know if I can put that in a review) If you don't mind these things, this is a fine book. It seems to me that someone slipped something in that the editors didn't catch, or maybe I got a book that wasn't supposed to be put out. I don't think I'll be giving it to my children. I would opt for the other Magic Eye books. I'm really not sure how to rate it, so I gave it 3 stars. The illusions are great, there's just something wrong in the answers section.

why do i have to review this, either you know what it is and love it or you don't

Love it! But page 10 is impossible to see.:I'm straining like crazy and cannot clear the mid page, just the top and bottom. I bought this book as xmas presents and wanted to make sure all is good, but am going to warn them not to bother with page 10 because they are going to learn with this book, it seems little hard for beginners.

thank you... as promised

These three dimensional books are great for many hours of fascination and fun. Children and adults love them.

I'm sure this book is good but I can't see many of the hidden images so I gave book away. If you good at hidden pattern this book is for you.

Great gift for children in Holiday setting. Challenging. Engages entire family and friends. Lots of fun. Will become the most talked about gift.

These books are the best. I always buy them to expand my insight. I purchased this one and others used (excellent prices and BOOK conditions newish) for my grandchildren. They absolutely love the books.
