good

Wonderful book! I previously used by Alfred Publishing but these are superior in content and context. Recommend this book to any teacher or serious musician.

These are the exact books that I need for my students to play in competition at festival in two days. They came just as expected in brand-new condition thank you. Love the music.

This is certainly worth getting if you are a piano teacher or just learning yourself. It has some very significant pieces for each time period.

This has a nice variety of pieces from different time periods. However, the editing in some of the songs is a little off and unusual. Especially in fingering and phrasing.

Good book. It arrived timely.

Good Book

Love these Faber books- they just get better and better!
