This is a very very basic book that can be read to children age 3 and under to reinforce the 5 pillars of Islam. Nothing extremely enlightening inside, but a good visual introduction to little tots and a solid board book they can flip through on their own as well.

Great book, it serves the purpose. It can certainly get attention of my little one. I am glad the quality is good so it's not easy for kids to tear a part. I would recommend it to others.

Good for toddlers

My 14 month old loves this. This book has nice illustrations with bright colors. It makes me very happy that this is among her favorite books out of a large collection she has (including baby einstein and several others)
