Customer Reviews

Even the novice puzzles are hard to complete. I have been doing Sudoku puzzles for a long time and found that except for the novice all the puzzles are hard to do. It's as if there was no levels and they were all difficult levels.

My mom likes to do Sudoku puzzles in her free time: on planes, in the car, etc. Bought this for her for Christmas last year. She was happy.

A birthday present for my wife, who is the sudoku expert here, and she loves it.

I like this book because it is spiral bound and I can lay it flat on a book holder. I do these puzzles when I am on the stationary bike and it helps to pass the time and forget that you are working out.

I was stumped on a puzzle, which is not something that happens to me often, so I checked in the back, and the answers were wrong. A bit embarrassing for the author and editor, but other than that it's fine. You just won't have the back of the book to help you if you get stuck.

The change in difficulty in levels is very dramatic

Excellent!

Love it
