Age Range: 8 - 12 years

Grade Level: 4 - 6

## **Customer Reviews**

I grew up reading this series and loved every one I could lay my hands on. Not having children of my own, I delight in giving them to my tutoring students as I can use the books to spark their taste for history. Houdini was enjoyed by my 7YO nephew as part of his "Prevent Summer Brain Rot" assignments and my 67YO mother, whose Kindle died. The book was pristine, the shipping was prompt, and the price was indeed right. I hope to buy from this series again.

Not my favorite in the series, because I don't like magic. But kids read for fun and homeschool. We love all the rest that we've read so far from this series.

Great child/teen entertaining biography. A way to get kids interested in history.

My son wanted to do a book report about Harry Houdini, but he wasn't a big reader. He loved this

book. It told all about him growing up and his family.

This is a book about Harry Houdini. Harry Houdini grew up with four brothers and one sister. He is famous for escaping safes, handcuffs and walking on tightropes. He was introduced to magic at the age of seven. On his journey Harry Houdini became one of the most famous magicians in the world. Houdini performed for more than one million people in his lifetime. After his greatest trick he passed away. I do not think this was a good book because it did not have a lot of information about Harry Houdini. Also, it did not tell when or where Harry Houdini was born. There were some confusing words. I would recommend this book as a good story but not for school use.

Read it when I was a kid & loved it.

As most people know, Harry Houdini was one of the greatest magicians and escape artists ever known. The author was pretty good at telling his childhood story, yet sometimes it was confusing. Maybe it because I wasn't concentrating the whole time. Even though I didn't enjoy the whole book, I would still encourage people to read it.
