I ordered this book for my husband who was recently diagnosed with non-Hodgkins lymphoma after

spleen removal and is undergoing chemotherapy. I struggled with what to provide in terms of spiritual support, as he is Christian but not "religious." This book appears to be a good "match" for him. He reads sections during chemo and before he goes to bed. The book is a good blend of practical information/advice about cancer and treatments as well as prayers and spiritual reflections. This blend seems to work well for him as a computer networking engineer. Yesterday I saw tears on his cheeks after his reading, and he said "This guy knows what he's talking about. It's exactly how I feel." Then I got tears in MY eyes. I'm so glad he is being blessed and comforted by this work. Thank you, Randy.

After finding out my husband possibly had Lymphoma, he was suddenly admitted to the ICU two days later with multi-organ failure, Hodgkin's Lymphoma, Secondary HLH, and a whole slue of other issues. We started to read this devotional together during the 4 month hospital stay, and by the grace of God, everyday was the perfect message for what we were going through. I would recommend this book to anyone facing cancer, and I plan to give this book to friends who hear the dreaded "C" word.

This book is one that everybody should receive that has just been diagnosed with any type of cancer. VERY inspirational.

Bought this for a family member who was diagnosed with terminal cancer. He loved it and it really motivated him and gave him hope.

Everyday I found encouragement that can only be given by someone who has gone through cancer. I still read it even though I'm now 'cancer free'. I received this book as a gift and ordered another for a friend because I couldn't seem to part with mine. It had become almost like an understanding and wise friend to me.

This is a wonderful book for anyone going through cancer. It is written by a cancer survivor. The prayers & poemson each page are short but very comforting. The author understands because he has been there and gone throughcancer treatment. It's a very encouraging book that you will want to read and reread.

Great book! My dad battling stage four cancer has been reading it!

Perfect for someone who has short attention span from chemo. Short & sweet readings for each day.
