Customer Reviews

A cracking read. Not for the faint of heart, but I couldn't put it down and finished it in one sitting. If you want suspense and like thrillers, you can't go wrong with this story. Highly recommended

Very excited read, I loved it. A first rate thriller with exceptional characters and a compelling story that twists and turns at breakneck speed, all the way to the explosive finale. If you like crime thrillers, you're in for an absolute treat!

Enjoyed this book! Full of surprises. Kept my interest, lots of interactions with main characters. Author has a vivid imagination. I would recommend this book to anyone who enjoys a good action mystery.

Enjoyed from beginning to end. Although some of the turns were dark the book held my interest throughout. The trouble with medications for orphan diseases and what families are willing to do for sick children are part of the core of the book.

A cracking tale taking the crime genre kicking and bleeding into the 21st century via some high-tech twists that will leave you squirming and cringing in your seat. As relevant and topical as the latest real-life drug-smuggling busts and desperate searches for cutting-edge cancer cures. Do yourself a favour.

Thrilling read. Thanks for the entertainment. When's the next one

Fantastic read! It kept up all night! Great plot and well written characters. The twist in the beginning of the book was what hooked me up.

Great read! Suspense rules in this world
