Walt Disney - A Kids Book With Fun Facts About The History & Life Story Of Walt Disney (Walt Disney Books)

Synopsis

Children's author Jacob Smith presents: "Walt Disney Biography for Kids - Learn Fun Facts for Kids About The History & Early Life Story of Walt Disney ". This informative kids book includes well chosen words & great pictures to help children learn more about one of america's most beloved pioneers in animation, Walt Disney. Aside from the interesting facts and images Mr Smith presents in his Walt Disney Biography for Kids, he also covers some interesting facts and insights about Walt Disney's background, how he started in animation, where he succeeded and where he failed, his plans for Disneyland and more. The pictures within this book are accompanied by small bits of easy to understand text while making it an exciting read about The life of Walt Disney. Therefore, Walt Disney Biography for Kids is a great educational book for kids ages 8 years and older (or for parents that want to read this book with their children). Currently set at a wonderfully low promotional price, this book on "Walt Disney for Kids" can be easily downloaded from the Kindle Store by any young readers that love to read on their own, as well as by parents who will read to younger children that are still learning to read.

Customer Reviews

I grew up with Walt Disney in my lounge. As a kid I loved watching all the Disney cartoons and of course the Disney movies whenever they came out (and still do). The man had an incredible vision that he was able to see in his mind's eye without having the fortune of seeing it "in the flesh". An extremely talented visionary indeed. What would the world be without Disney? An interesting book filled with facts and information about the legend, Walt Disney. Highly recommended.

I thought this was a really cool book for kids and very neat to see some pictures and learn some history about Disney. Along with his brother, he was quite the entrepreneur and parents would do well to point some of these things out as they read with their kids so they can learn about the business of Disney along with the artistry. Who knows? They could become the next major innovator in entertainment and please the entire world.

My son had to do a school project and read a biography, it is hard to find biographies and fun books of that nature for kids to read and enjoy. This book was just the right length for him to read and not lose interest. It provided so many fun facts that helped him complete his project and paper. Couldn't beat that it was free for the kindle the day I purchased it as well!

Walt Disney really was a pioneer in animation, and he was very successful. But I didn't realise, before reading this book, that he went through a number of failures early on in his career. This book is full of interesting facts about the man and his dream, and of course, there are pictures too! A well-written and enjoyable read. I highly recommend!

Nicely written for kids. Highlights most of the big events, and maybe they will want to know more as they get older.

This book provided great detail into the history of Walt Disney the Disney legacy. I really enjoyed reading and sharing his history with my daughter.

Covers most of the important events that make Walt Disney special from his early life to building of theme parks. Would recommend it adults for a quick read of the Disney story.

I chose my review rate because of how much info the book held And how much it was missing. I do

think it was a good book
