This guide give you the basics str8 4ward real talk. The author essentially gives you the meat n potatoes; thankfully holding the lettuce! Easy read truly takes about an hour and feels like a conversation instead of a lecture. To the author! thank you!

This "book" which should be called a pamphlet is only 30 pages, front to back. It actually says in it that a song is nothing more complicated than a result of words + music = song. Ummmm duh?!

Thank you this book helped me so much In my song writing ability.

This book tells you right away. What you are looking for. I found it very useful. It gave me a good start.

Has some helpful information.

Provides the bare essentials for those with little to no experience with music and songwriting. A quick 30 minute read.

This is indeed a good starter book but a bit simplistic. I was expecting some songs as example and some ideas for different genres.

Ultimately disappointing! 30 pages of large print! You can read it in an hour or less. Most of it is just fluff and philosophizing. The salient content could be condensed into a page or two. A waste of my money!
