Customer Reviews

Be prepared to be disappointed. I don't know who has been writing these reviews but this is a single paperback book. It is NOT a "box set" but is merely a single paperback book with pages that look like a term paper typed on a typewriter that have been bound together with a cover. The "Mastery" section is (amazingly) only a repeat of the first section (half) of the book and instead of providing any details it merely says to consult the internet. Can be read entirely in one sitting. Way, way, way overpriced.

To much wrong with his books. First off the author has no clue what Cannabis is. Talks about how

cannabis and marijuana are different plant types (wrong. Cannabis and marijuana is the same thing. Some like to call it one or the other, but it's still the same thing.). Secondly the information the author presents I feel has been fished from marijuana websites/forums. Lastly it has been very poorly written, presented, and missing tons of info. This is no more than a scam to get you to buy his junk and to sign to his website. Don't bother wasting your time!

These books did not offer any real knowledge. I'd say they barely cover the basics. Definitely not worth \$4.50. As a matter of fact, if I had gotten these for free I'd still be disappointed. They are not worth the time it takes to read. You can gain more knowledge just going online to forums, which by the way is continuously recommended by the author. Trust me DO NOT BUY!!!

Some good info, but needs to be in a more cohesive order. Also the author says refer to the internet an awful lot. Isn't that what the book is for? If I wanted to look it up on the computer, I wouldn't have bought the book.

Not a "boxed set"....a "boxed set" implies 2 books! This is one small book with a total of 105 pages and no pictures! Worth \$10 at best...a rip off at over \$17! I bought it because it was a newly written book and I thought there would be 2 books with at least 100 pages each and at least some pictures. Did not even bother to read it. Just returned it to purchase a book worth the money I am paying!

This book has been brought to you by Google and copy/paste

I don't grow, but I was interested in the subject. This book is a good place to start and it encourages you to do other research. I highly recommend this to someone just starting off.

I returned this because it was supposed to be two good sized books. I received one very small book which didn't fit my needs.
