The Gender Secret: The Gender Game, Book 2

Synopsis

The pulse-pounding second book in the Gender Game series. Gliding over the treacherous Green in a shaky aircraft that she has no idea how to land, Violet Bates is still in shock. The harrowing events of the previous night play over in her mind as she asks herself question after question. Why did Lee Desmond Bertrand behave the way he did? What is the truth about the mysterious silver egg stowed beneath her seat? What happened to Viggo, and where is her brother? Is either of them still alive? When Violet manages to reach the toxic ground alive, she has landed in a world of unimaginable danger. She has barely time to catch her breath before she is sucked into a perilous journey at breakneck speed - to uncover secrets guarded for centuries and find the only two people who matter.

Bella Forrest is a great Author she got me hooked on her A Shade of Vampire series. Then this series came out and it was just as interesting. It is so nice to discover a new Author and all her series she is making has been so interesting going into those books world's and learning about all the characters struggles and back stories. Always look forward to when a book of hers comes out. They are so hard to put down, it's such an interesting world.

I have almost all of Bella Forrest' books, while I enjoy most of them , I was surprised by how much in reading this one. I won't give away any spoilers, but it is suspenseful , detailed and doesn't easily give away the plot. It keeps you thinking and wanting to know more. I look forward to reading the

next installment and encourage others to read this series.

Honestly, I do really like the story. Other than the obvious luck of the heroine, my main beef is her amazing healing powers. She "cracks" and "breaks" hands, legs and ribs so often and this story takes place over the course of less than a week, I honestly can't see how I can believe that even in this mutated future world humans can mend so quickly. Otherwise, the story is fast paced and the characters are engaging. I'm intrigued enough to read another.

This amazing book kept me hooked and I love it, adventure, mystery, emotional to the core. I started slow, but then read it at every possible moment! I recommend it to all ages! 5 Star writing! Can't wait to get book 3, and continue Violets journey.

I like this series. I'm a middle aged woman who's a big fan of YA fiction, such as Twilight, The Hunger Games, Divergent & The Vampire Diaries. I was very pleased to find another series to get hooked on, and this series has not disappointed. I believe it would make a great film series as well. It's good fun with a nice little love story. Enjoy!

I listened to book one, but books two and three aren't on Audible yet, so I am READING them. I just have to stay with the story! You get to know the characters, and the story moves along at a good pace. It's not difficult to follow, and is a good read. Be warned though, you won't want to stop at book 2, and there are at least three more!

Bella, girl, you outdid yourself this time. No sex, great. Don't get me wrong I do love all of your books with a lot of sex, A shade of vampires are the best and all the rest that followed. This series is special, it doesn't need any sex, a tender kiss will do, I love the characters, even the dog. I'll be waiting with bated breath, while reading your latest A shade #36 or #37. Then I'll read your newest series, I read the first one. As always, keep up your vivid imagination. Æf Æ Å Æ Æ Æ Æ

The book is very well written. If you like sci-fi books about how the world might be in the future, due to some apocalyptic event, then this is the book for you. The book does not say exactly why the world changed dramatically but it gives clues. The book also flip-flopped between the main characters point of view. I always love knowing the inner workings of the individual characters.
