Customer Reviews

Bought this for my 2 year old in the hopes that it would eat up some time during a 5 hour flight. He loves all the Mickey's Clubhouse characters and there are enough flaps to open and shut to make the book interesting for a decent length of time. I also like that it doesn't weigh a ton, but is still sturdy and he is not likely to ruin the tabs any time soon. He still goes through it on a regular basis at home, and I like that it covers so many different things such as color, shape, counting along with the more general story. Definitely a good buy for a toddler on a trip!

Well, it's MICKEY!!!!!!!!!!!!!!!!!!!!!! My son is obsessed and this book is a LIFE SAVER. It has kept him entertained in some many situations that i needed him to be quiet or to calm down. The flaps are so fun and do not fall apart or tear like alot of books with these flaps do. The colors are vibrant, all the characters are there, and I think this book will be around our house for a while. I have to admit that

the storyline is not super interesting, but that isn't really necessary with all the flaps and images and colors.

This book is fantastic! I purchased it in preparation for a flight from Portland, OR to Chicago, IL and I couldn't be more happy with how well entertained it kept my 2 year old daughter. There are SO many flaps to lift throughout the whole book; there's even a Toodles flap on each page to help them decide which mouseketool will be needed. Each page offers a different "subject

My 2-year-old son LOVES this book. He wants us to read it to him every night before bed. The book tells a story, but each page has its own theme and subtly teaches colors, numbers, animals, etc. This was a birthday gift for him 3 months ago and the book has held up fairly well to the rough handling of a toddler. All of the flaps are still intact. I would recommend for any toddler who is a Mickey Mouse fan or who enjoys interactive books.

Really entertaining for 1.5-4 year olds who love mickey. My 22 month old who hates car rides will flip through the book for about 10-20 minutes. Good for long trips and trips to the supermarket! It has great little learning points of colors, shapes, numbers, etc... kinda the standard stuff. We have the Little People one too that my son liked, but Mickey and Minnie are all my 22 month old daughter really like right now.

Good, sturdy book for a toddler. The flaps are made of thicker cardboard so their tiny hands won't rip them off as easily as some I've seen before. There are quite a few flaps on each page so there are lots of things for the little ones to look at. I bought it for my granddaughter to read while on a plane trip to Hawaii so the beach theme was perfect.

My daughter loves this book! She is a Mickey fan so I bought this book for her on a plane ride. She now asks to read it often and loves lifting up all the flaps. It's a large sized book and each page has tons of flaps. The flaps are pretty durable, although it took awhile to break them in so they'd open easily and close and stay shut. Great book!

As my grandson loves to watch cars, trucks, motorcycles, delivery trucks out the window of his home. This just adds to the fun! Over 50 lift flaps in his Mickey Mouse Clubhouse Road Trip book. I have reinforced every flap before I gave it to him, because opening the flaps get his excited.

Seeing his smile as he goes through this books is heartwarming!
