SEO - The Sassy Way Of Ranking #1 In Google - When You Have NO CLUE!: Beginner's Guide To Search Engine Optimization And Internet Marketing (Beginner Internet Marketing Series) (Volume 3)

Synopsis

A STEP-BY-STEP GUIDE to optimizing your website and blog posts for SEO and RANK IN GOOGLE Have you ever wondered how websites end up on page 1 in Google - and why your site isn't there? Does it just "happen"? Is it luck? Do you need to know someone at Google? Or are there actual techniques that can help you get to #1? The good news is: there are! The Art of Ranking in Google is called SEO and people who do it well, make a LOT of money! Why? Because the higher you rank, the more people will visit your site = potential customers -> the more money you can make. SEO is a form of internet marketing, just like Google or Facebook Ads, yet a lot more effective and stable once set up - and in the long run, far less expensive! For blogging purposes, SEO is next to Kindle Publishing the most effective strategy to grow an audience long term - and also, to market affiliate products (=monetize your site). And you need to start from Day 1. - This is the one technique you cannot put off for later! This book will take you as a complete novice and take you step by step through: What SEO is all about? The main techniques and strategies to start ranking in Google and how even as a total beginner you can start employing them from day 1. The pitfalls and dangers along the way (Google Penalties) How to structure your Posts for optimal ranking chances How to structure your overall Site for optimal Google recognition Basic - but effective Backlinking strategies Social Media Implementation Most of all - this book will help you understand what it's really all about and why it is so important to employ SEO techniques from day 1! This is the one technique you cannot put off till later and while you might feel overwhelmed in the beginning with all the new things to learn, this book will make it painless and easy to get started with minimal time input. Go back to the TOP to purchase - see your there!;-)

Customer Reviews

"This is one of the best guides on SEO without breaking the bank and without making you violently scratch your head over technical mumbo jumbo. Covering the basics and (somewhat) beyond, this book saves a lot of time and effort. No need to scour through the Internet for SEO tips. I've even learned some new things that I was never taught in SEO training in one of my professional communities." - Nancee Marin *****
"This is the easiest and most precise SEO guide I read. Although it is still work it will lead you through the process wonderfully and very easy to understand from putting up the settings on your site to applying SEO to your articles in the end. Many tips for free application that will help you. I love seeing complex themes brought down to the essence in order to be understood by everyone." - Mira M. *****

Gundi Gabrielle is a 5-time #1 Bestselling Author, Internet Entrepreneur and Digital Nomad. As a former Carnegie Hall conductor and Concert Organist, she decided 3 years ago to make a bold change in her life, packed up a few belongings and drove all the way from Santa Monica, California, to Alaska. She has been traveling ever since and loves exploring this beautiful world without being tied to one place. She has road tripped through all 50 US States and parts of Canada, lived in several European countries for a number of years and visited most of Europe, as well South America, Southern Africa, Australia, New Zealand and many countries in South East Asia and the Middle East. She runs the Travel Blog SassyZenGirl, writes travel and blogging books and often house or farm sits along her travels, nurturing her love for animals and solitude. She has no plans of settling down anytime soon...

Smooth transaction and prompt delivery - thanks

This is one of the best guides on SEO without breaking the bank and without making you violently scratch your head over technical mumbo jumbo. Covering the basics and (somewhat) beyond, this book saves a lot of time and effort. No need to scour through the Internet for SEO tips. I've even learned some new things that I was never taught in SEO training in one of my professional

communities.

Wow, after struggling with SEO for years, this guide really helped me to understand the connections of SEO and helped me to gradually adjust my website. While reading I kept motivated actually doing it ! To work with the tools, suggested in the book, was great fun! I recommend this guide for everyone who wants to have the right set-up for the SEO on their website and the related success.

I am so glad that I came across this book. I have been wanting to take a class on SEO and just never seem to find the time to take one. This book is something I can easily read and also keep as a resource to fall back on when I can't figure something out. I definitely recommend buying it!!

This was a clear and concise guide to all things SEO! I am new to the Web building world and have found the information in this book to be very helpful.

Unlike other books on SEO this one is easy to grasp and apply. I have many of the programs but now I know what to do with them.

MOST OF THESE 5-STAR REVIEWS ARE FAKE REVIEWS. They only review books by this author with not much history after that. This author does not know much about SEO. Buying your own reviews is a cheap BLACK SEO tactic. There are much better books than this. Just watch her youtube channel. You'll see she struggles explaining what you need to do. Her book seems to be a compilation of other great books but does not provide anything unique. She also advertises for Konker.IO which is not a very reputable site. Some of her advice is just way OFF. She tells you to place links within your text and the example has NO RELEVANCY to your keywords. Also, she doesn't even hyperlink her own links within the e-book but she hyperlinks to websites that she uses as examples that do not exist like YourAwesomeSite.com. That's like SEO 101!!!!.....I do not trust this person at all...I did not get the feeling she knows what she's talking about.

I loved her book. This is the second book I read from Gundi, and it well paid off. I did not yet put the knowledge on the test - as I am writing my first book and will open a website (landing page) for -, but I know what to check out, what info to look after, what not to do, what tools I could use, and how the system works. It is a down-to-earth guided material and not theoretical knowledge base. After I

finished my own book, I definitely will read her other books as well that I already purchased in the 'bundle'. And she personally responds to comments on her website. I was very surprised, I received an email from her. Really? Yes, she wrote me to fix the issue I had. I couldn't believe it. NOBODY answers you personally in an email, according to my experience. She did. That's what you get!
